OPTIMA

Sunoco Optima is an unleaded fuel blended from highly-refined hydrocarbon blendstocks.

Optima does not contain ethanol or MTBE and is oxygenate-free.

Optima has excellent storage characteristics, making it ideal for storing vehicles and gasoline-powered equipment, especially those requiring an exceptionally stable unleaded fuel.

Optima is specially formulated to be easy on gaskets, o-rings, and other fuel system components. It also promotes quick mixing with 2-stroke oils in both air-cooled and water-cooled applications. Sunoco Optima is an excellent choice for gasoline-powered yard, farm, and industrial equipment and other small engine applications that may not be used on a regular basis. Gasoline stabilizers are not needed when using Sunoco Optima.

Sunoco Optima contains detergent additives for engine cleanliness as well as anti-oxidants and corrosion inhibitors to enhance storage life. Optima is not a street-legal fuel and is for off-road and racing use only. However, it will not harm oxygen sensors or catalytic converters. When stored in air-tight, opaque fuel containers, the shelf life of Sunoco Optima is in excess of three years.

Disclaimer: Legal in California only for racing vehicles in sanctioned racing events.

Legal: Not street legal.

SUNOCO LEADED RACE FUELS - PDS

APPLICATIONS

- ff-road
- Off-road Motorcycle and ATV
- Karts
- Boats and Personal Watercraft
- Snowmobiles
- Muscle Cars and Vintage Cars

TECHNICAL DETAILS

Color	Not Dyed
Octane (R+M)/2	95
Research Octane	98
Motor Octane	92
Specific Gravity	0.72
Weight (lbs/gallon)	6
Reid Vapor Pressure (PSI)	8
10% Evaporation (°F)	132
50% Evaporation (°F)	215
90% Evaporation (°F)	228
Stoichiometric Air/Fuel Ratio	14.9
Oxygen (weight%)	0
Ethanol (volume%)	0
Methanol (volume%)	0
Dielectric Constant	0
Leaded	No
Color	Not Dyed
