

SOUTHERN RACING FUELS, INC.

121 N. JENKINS RD. FORT PIERCE | FLORIDA 34947
PH. (877) 240-3278

SR18

Sunoco SR18 is our ultimate high octane, fast burning racing fuel. If you have a high compression, high RPM race engine, 118 octane Sunoco SR18 is your fuel of choice.

SR18 is an excellent choice for drag racing and truck pulling, especially large displacement applications. For oval course and road racing applications, SR18 will tolerate the high cylinder pressures in racing classes where there are no compression ratio limitations.

Sunoco SR18 is for off-road and racing use only. It contains additives to enhance stability and increase storage life. As with any gasoline, SR18 should be stored in opaque, tightly sealed containers where temperatures are stable. Handled under such conditions, the shelf life of Sunoco SR18 is 2 years or more.

Disclaimer: Legal in California only for racing vehicles in sanctioned racing events.

Legal: For off-road and racing applications only.

SUNOCO LEADED RACE FUELS - PDS

APPLICATIONS

- Road Course
- Asphalt Oval
- Dirt Oval
- Off-road
- Drag
- Truck and Tractor Pulling
- Karts
- Boats and Personal Watercraft
- Snowmobiles
- Miscellaneous Nitrous, Superchargers, Turbochargers

TECHNICAL DETAILS

Color	Yellow
Octane (R+M)/2	118
Research Octane	120
Motor Octane	116
Specific Gravity	0.704
Weight (lbs/gallon)	5.9
Reid Vapor Pressure (PSI)	6
Initial Boiling Point (°F)	99
10% Evaporation (°F)	166
50% Evaporation (°F)	209
90% Evaporation (°F)	213
Final Boiling Point (°F)	223
Stoichiometric Air/Fuel Ratio	15.1
Oxygen (weight%)	0
Ethanol (volume%)	0
Methanol (volume%)	0
H/C Ratio	2.2
Lower Heating Value (Btu/Gallon)	111000
Lower Heating Value (Btu/Pound)	18950
Dielectric Constant	-1
Leaded	Yes
